See how you rotated this page around to read this text more easily? **Ge** The same rule applies to scissor cutting. Rotate the **Whiz!** PAPER while cutting—not the scissors—and you'll get pro-looking edges (and impress your friends)!

Background piece: Cut out on the GRAY lines surrounding the piece except for the bottom edge (which you will cut right on the "art edge.")

Then FOLD the background piece in half like a book (using the dotted line as a guide to start your fold).

Then unfold the background piece into a flattened "V" shape from top view.

Don't forget to cut the six color-coded assembly slots!

Look for Donkey Kong Country Returns for the Nintendo Wii system at your favorite retailer!
