LADIES AND GENTLEMAN! PRESENTING: ASTOUNDING! EASY-TO-BUILD THRILLING! MYSTERIOUS! PAPER SCULPTURES

LOOK! You can have a Desktop Gremlin sitting on your desk in just a few short minutes! Print this page on **glossy photo paper** (for best results) and grab a pair of scissors!

Bonus:

This gremlin has a secret slot that you can cut to add a unique "charm" to your sculpture!

Make your "charm" cut by adding a curved slot on the matching tentacle as shown above. Then cut out a charm below and nestle it into this new slot.

The Octopus
Terror from the deep!

See how you rotated this page around to read this text more easily? The same rule applies to scissor cutting. Rotate the PAPER while cutting—not the scissors—and you'll get pro-looking edges (and impress your friends!).

INSTRUCTIONS
1) Trim out the 3 pieces that form your gremlin on the GRAY outline border of each shape. Don't forget to cut the assembly slots in each piece. 2) Roll the "base" piece into a loop-type shape and secure by sliding the two vertical BLACK slots into each other. 3) Insert the "background" and "foreground" pieces into the base by aligning the corresponding ORANGE and GREEN slots.

COLLECT THEM ALL!

Emerging from the deepest depths of the darkest sea, "The Octopus" can now be unleashed onto your desk to help you multi task like never before. He's a bit spooky at first glance, but you'll soon realize his softer side and grow to love him. He's prone to jealousy and sometimes a bit "clingy." But take wonder in his ability to clean up your spills, organize your paperclips and protect your precious diary or computer equipment.
