LADIES AND GENTLEMEN! PRESENTING: ASTOUNDING! EASY-TO-BUILD THRILLING! MYSTERIOUS! PAPER SCULPTURES

LOOK! You can have a Desktop Gremlin sitting on your desk in just a few short minutes! Print this page on **glossy photo paper** (for best results) and grab a pair of scissors!

Bonus: This gremlin has additional charms in the form of these little pieces of notebook paper. What sort of spark do you need? Toss these notes into the ring of rocks to "talk" to Sparky! (Fold vertically and horizontally for a nice 3-D effect.)

See how you rotated this page around to read this text more easily? **Go!** The same rule applies to scissor cutting. Rotate the **Whiz!** PAPER while cutting—not the scissors—and you'll get pro-looking edges (and impress your friends!).

INSTRUCTIONS
1) Trim out the 3 pieces that form your gremlin on the GRAY outline border of each shape. Don't forget to cut the assembly slots in each piece. 2) Roll the "base" piece into a loop-type shape and secure by sliding the two vertical BLACK slots into each other. 3) Insert the "background" and "foreground" pieces into the base by aligning the corresponding RED and BLUE slots.

Howdy Campers!
