See how you rotated this page around to read this text more easily? The same rule applies to scissor cutting. Rotate the PAPER while cutting—not the scissors—and you'll get pro-looking edges (and impress your friends)!

Gee Whiz!

INSTRUCTIONS

1) Trim out the 3 pieces that form your gremlin on the GRAY outline border of each shape. Don't forget to cut the assembly slots in each piece. **2)** Roll the "base" piece into a loop-type shape and secure by sliding the two vertical BLACK slots into each other. **3)** Insert the "background" and "foreground" pieces into the base by aligning the corresponding RED and BLUE slots.

Note: Time Touchers like to live together in groups of three. They consist of a "Ticker," a "Tocker," and a "Cuckoo."

A Time Toucher Tip!
Put some bird seed out for "Cuckoo" and you'll see favorable results quickly.

The first thought on encountering a "Time Toucher" is to ask it to take you back in time to fix some mundane mistake you in the past or to whisk you off to the future to ride on a hover skateboard. But the truth is, they are just "touchers" of time enabling them to slow down or speed up the present reality.

So if you're under a tight deadline and ask nicely, one of them might let you have extra time to get your work done. But don't cross them or time will fly when you don't want it to!
