FAN ART!

TRON

LIGHT CYCLES

Turn your desktop into "the Grid" with these classically-styled light cycle papercrafts. It doesn't get much more simple and elegant than this!

PRINT ME ON 8 1/2 x 11 PHOTO PAPER*

CUT ME OUT WITH SCISSORS

*Note: this PDF has a second page. If you have two-sided photo paper, you can print page two on the back of this sheet so the art will cover both sides of the paper. Cool!

After cutting out each light cycle with it's light trail attached, just make at least one 90° fold to stand it up!

DISCLAIMER: When a Desktop Gremlin is classified with the term "fan art" it means that the material presented consists of my original illustration and papercraft engineering but it is inspired by products and/or characters that I did not invent. TRON is not my invention (obviously) and this papercraft is in no way official nor endorsed by their owners and are either trademarks or registered trademarks of their owners in the United States and/or other countries. I will never sell or grant permission to sell a Desktop Gremlin Fan Art papercraft design based on a character I did not create.

THAT SAID: The movie TRON from 1982 is a huge favorite of mine. It inspired me to look at the computer as a tool to make art which in turn helped propel me into a career of graphic design! This papercraft is a gift to all the "users" that agree with me. End of line.
